For this activity, create a layered book using 4 sheets of paper. You'll have an extra flap at the bottom. Just cut it off above the next flap. It will be hidden when you glue the book into the project folder. If you're using it on its own you can cut it off even with the next flap and glue it to it. This will not only hide the extra flap but give the booklet extra strength. Cut the labels out and glue them on the flaps. After a study of the Lord's supper the student will lift the flap and write the answer. You can also have the student copy the scripture the answer comes from if you'd like.
