Copy/Memory Sheet

Memorizing scripture is a very worthwhile activity. Once something is really memorized well, you can recall it wherever you are whether you have a Bible with you or not.

The easiest way to memroize is to read it, say it, hear and write it. You have truly mastered it when you can write it down from memory. Use this asheet to help you.

When you are just starting out, it is fine to copy the passage you are wanting to learn. But, before long, try writing it from memory.

After you've memorized it well, try writing it from memory while you're at home or school or anywhere.
