

Print on card stock. Laminate. Cut each piece out. Put small piece of the hook side of velcro to the back of each piece. Store piece in small ziploc bag. Store gloves and the small ziploc bag in a larger ziploc bag or small basket. Laminate the instructions below and store with the gloves.

During class:

Give each child an exfoliating bath glove.

Scatter the pieces on the table. There should be a complete set for each child.

As you talk about each of the steps leading to salvation, let the children find the one you are talking about and put it on his glove.

After the gloves are complete, I like to sing the Salvation song.

Older children could memorize passages that teach about each of the passages. As they recite the passage, they can put the correct picture on the glove.
